

# SnapAnalyst Schema Documentation

Generated: 2026-01-14 00:01:48

## Database Information

**Name:** SnapAnalyst

**Version:** 1.0

**Description:** SNAP Quality Control database with normalized household, member, and QC error data. Data is structured to eliminate the wide-format CSV issue (1200+ columns reduced to ~100 columns across 3 tables).

**Purpose:** Enable analysis of SNAP (food stamps) quality control reviews to understand benefit accuracy, household characteristics, income sources, and program errors.

**Data Source:** FNS SNAP Quality Control FY2023 Public Use File

**Total Households:** ~150,000 across all years

**Fiscal Years:** 2021, 2022, 2023
